

NOTICE: INTERRUPTION OF WATER SUPPLY

T04 -2019-083

Date of Interruption: March 5, 2020

Anticipated time of Interruption: 7:00 am – 7:00 pm*

****This is a worst-case scenario due to winter conditions and if any issues arise during the work.***

We anticipate the water could be back on between the hours of 3:00 pm to 5:00 pm on Dunlop Street if no issues arise during the work.

**Location: Dunlop Street East from 50 Dunlop Street East to Mulcaster Street
Owen Street from Collier Street to Dunlop Street East**

The City of Barrie has scheduled a temporary shutdown of water service on the above noted date(s) and time. This temporary shutdown is necessary for the City of Barrie Water Operations Branch to perform work on the watermain in your area in relations to the Dunlop Street East Corridor Improvements.

During the above times, water will not be available until work is complete. Upon restoration of water service, the water supply may be discoloured. Your cooperation in running the cold water tap in your tub (or a cold water faucet) for several minutes to clean out your water service is appreciated. We also ask that when the water supply has been restored, you check your water meter for any leaks.

NOTE: It is advisable to turn off equipment operated by water during this water interruption (i.e. water-cooled air conditioners, boilers, washing machines, dishwashers, water softeners by-pass, etc.).
